Prime Bid is specially designed software for general contractors to use on bid day. Prime Bid provides structure to organize the project sections of work by CSI divisions. Bids are easily input. Supplier quotes and subcontractor bids are analyzed in a matrix format and the total bid amount is updated with each new bid entry. Base bid and alternate bids are managed in the same file. Low base bidders can be required as alternate bid vendors of choice.

In today's competitive bid marketplace you need every advantage you can get.

Prime Bid's spreadsheet interface is easy to learn. In 1 or 2 days you will be submitting the best analyzed bids you have ever generated.

The primary benefits of Prime Bid are;

- Eliminates math errors
- Eliminates missing scopes
- Flags bids lower than a selected %
- Provides easy multi-user bid input
- Cost of requiring or excluding a vendor bid is automatically displayed
- Enables the people entering base bids to enter and analyze alternate bids
- Displays base bid and alternate bid totals in a single window
- Generates the subcontractor listing with a single click
- Imports General Conditions and Self Performed work estimates directly from your estimating software
