

SETTLE THE SCORE

EXPOSURE TO
CYBER-RISK
SHOULD BE
TOP OF MIND
FOR
ALL BUSINESS
LEADERS
TODAY

FACTS:

- 1** • There were over 2.5 billion records lost, stolen or exposed in 2017
- 2** • 66% of malware was installed through malicious email attachments
- 3** • The average time it takes a company to detect a breach is 191 days
- 4** • A merchant can be fined up to \$100,000 per month for PCI DSS compliance violations
- 5** • 69% of consumers would be less inclined to do business with a company that experienced a breach

CITRIN COOPERMAN'S SCORE REPORT™

SECURITY, COMPLIANCE, AND OPERATIONS RISK EVALUATION

The SCORE REPORT™ is high-level cybersecurity risk assessment of your business's technology and compliance environment.

SETTLE THE SCORE

The first step in defending your business against a cyber-attack is being proactive.

ASSESSMENT AREAS

A high-level risk evaluation of several components of the company's IT environment, including:

IT operations

Network security

Physical and logical security

Online security

Mobile devices

Data privacy and security compliance

Recovery

System and hardware controls

DELIVERABLES

Risk Summary Dashboard – All-in-one graphical view of your risk evaluation results

Hot Spots Report – Overview of the company's most significant risks

Summary of Observations – Detailed inventory of risks and how to remediate them

Recommended Solutions – Overview of strategies to address any significant risks
